

CELEBRATING 23 YEARS OF INNOVATION AND EXCELLENCE IN DRILLING

Dear Customer,

At South Corp International Inc., we are proud to celebrate over 23 years of delivering innovative, high-performance drilling solutions to industries across North America. Over the past two decades, we have built a reputation for excellence, providing our clients with the tools, technology, and support they need to succeed in even the toughest drilling environments.

Our Journey:

- **Established Expertise:** Since our inception, we have grown into a trusted leader in the drilling industry, serving sectors like oil & gas, HDD, mining, geothermal, water wells, and construction. With locations in Alberta, Oklahoma, and Texas, we have expanded our reach to deliver high-quality products and services across North America.
- **Innovative Technologies:** Over the years, we have developed patented PDC drill bit designs and advanced engineering techniques to push the boundaries of what's possible in drilling technology. Our use of Polycrystalline Diamond Compact (PDC) cutters has revolutionized the way drilling is done, offering faster, smoother, and more cost-effective drilling compared to traditional roller cone bits.
- **Customer-Centric Approach:** At the heart of our business is a commitment to customer satisfaction. We believe in building strong partnerships with our clients by providing not only the highest quality products but also responsive and reliable customer service. With South Corp International Inc., you get more than just a drilling bit—you get a team dedicated to your success.

Why Choose South Corp International Inc.?

- **Proven Track Record:** With over two decades of experience, we have the expertise to understand and solve even the most complex drilling challenges.
- **Unmatched Quality:** Our products are designed and manufactured to the highest standards, ensuring they perform consistently in the most demanding conditions.
- **Innovative Solutions:** From custom-designed bits to advanced PDC cutters, we continue to innovate and lead the way in the drilling industry.

Let's work together to bring the benefits of our 23 years of experience to your next project.
