

## EXTEND THE LIFESPAN OF YOUR DRILL BITS WITH OUR REPAIR SERVICES

Dear Customer,

Downtime can cost you both time and money, but with the right repair services, you can get back to work faster and more efficiently. South Corp International Inc. offers comprehensive PDC bit repair services to help you extend the lifespan of your bits and keep your operations running smoothly. Our team is ready to restore your PDC bits to their full performance capabilities, reducing the need for frequent replacements.

### Benefits of Our PDC Bit Repair Services:

- **Cost Savings:** Rebuilding a PDC bit is typically around half the price of purchasing a new one, making it an economical option. By choosing repair over replacement, you can save significantly without sacrificing performance.
- **Extended Lifespan:** Our repair services are designed to restore your PDC bits to their full operational capacity, ensuring they perform well even in the toughest environments. This extends the life of your bits and reduces the need for frequent replacements.
- **Fast Turnaround:** We know that downtime can be costly, which is why we prioritize quick and efficient repairs. Our team works diligently to ensure your bits are back in action as soon as possible, minimizing any delays in your operation.

### Why Choose South Corp International Inc. for Repairs?

- **Patented Technology:** Our patented depth-of-cut control technology ensures that cutter-damaging peak loads are minimized, balancing the workload across more cutters and extending bit life.
- **Thorough Inspection:** Each repaired bit undergoes rigorous testing to ensure it meets our high standards of performance and durability before being returned to you.

With no moving parts to fail, PDC bits last longer and require fewer swaps, which keeps you focused on drilling, not maintenance.

**Contact us today to schedule your bit repairs and experience the quality and reliability that SCI is known for.**
