

STRATEGIC LOCATIONS ACROSS NORTH AMERICA FOR FAST, RELIABLE SERVICE

Dear Customer,

At South Corp International Inc., we understand that proximity to our clients is crucial for delivering exceptional service. That's why we have strategically positioned our operations across North America, with key locations in Alberta, Oklahoma, and Texas. Our multiple facilities allow us to provide quick and efficient service to clients no matter where they are located.

Benefits of Our Strategic Locations:

- **Quick Response Times:** Our strategically placed locations allow us to respond to your needs quickly and efficiently. Whether you need equipment, repairs, or technical support, we're never far away.
- **Efficient Delivery:** With facilities in multiple regions, we can ensure timely delivery of our products, reducing downtime and keeping your project on schedule.
- **Localized Expertise:** Each of our facilities is staffed by a team of experts who understand the unique challenges of the local drilling environments. From the cold conditions of Alberta to the rugged terrains of Oklahoma and Texas, our team knows how to provide the right tools and support for your project.

Our Locations:

- **Calgary, Alberta:** Our Canadian branch, South Corp International Inc. (SCI), is based in Calgary, and provides local expertise and service for Canadian clients.
- **Mansfield, Texas & Duncan, Oklahoma:** Our U.S. locations are home to our in-house design team and production facilities, ensuring high-quality products and fast service across the United States.

No matter where your project is based, South Corp International Inc. has the experience, resources, and proximity to ensure that you receive the support you need.

Contact us today to learn more about how our strategically placed locations can benefit your operations.
